Regionally Targeted  
Markets in %

## Expanding Market

As our company is expanding in local market rapidly and we started to expand also in Regional Market, our target is to increase the export in Regional countries, Europe and Middle East as our capacity of production and very high quality products allows us to be a very competitive company in Export markets.

By Year 2022 our aim is to have 26% of regional market and the possibility to take a certain percentage in other markets. Quality products, competitive prices, very good service after sales are some of our steps we will apply in order to be present all over export markets.
